

# party diary.

Dear Readers,

Thanks for subscribing to Celebrate & Decorate and downloading this Party Diary. What is a "party diary"? It is a great tool to record details of your children's birthday parties, cocktail parties, dinner parties... any celebration, really.

After each celebration fill this form out and put it away in your Party Diary binder along with the invitation you sent out to your guests. This way you can look back and reminisce and most importantly you can pull it out when planning your next celebration to recall what went right, and what didn't. You don't want to invite guests to a dinner party twice and serve the same menu!

I hope you get valuable use out of starting your very own Party Diary. And as always, if you're looking for inspiration for your next celebration, visit [CelebrateAndDecorate.com](http://CelebrateAndDecorate.com)!

*warm wishes,  
Chloe Crabtree*
